PRESS RELEASE – LSU Health Shreveport COVID-19 vaccine schedule through May 15th

May 24 – LSU Health Shreveport offers COVID-19 vaccinations to the public Monday through Friday from 10 AM to 6PM at the LSUHS North Campus location. The Center of Excellence for Emerging Viral Threats (CEVT) also has scheduled vaccine opportunities for students and staff of participating Caddo and Bossier high schools. While vaccine offerings within schools are closed to the public, more information may be provided upon request.

Those wanting to vaccinate children ages 12 to 15 MUST pre-register at www.lsuhs.edu to ensure a signed consent form is completed. Any minors under age 18 will need to have a parent present or provide a signed parental consent form in order to be vaccinated. Vaccine eligibility includes all Louisiana residents AND those from out-of-state, who are 12 years of age and up. Those ages 12 to 17 may ONLY receive the Pfizer vaccine, but those 18 years and up may receive the Pfizer, Moderna or Johnson & Johnson vaccine. LSU Health Shreveport will also be assisting local pediatric clinics to provide the Pfizer vaccine for their patients. Clinic coordinators should contact Dr. John Vanchiere for more information.

No appointments are needed for first or second doses of the vaccine.

Individuals should provide ID and insurance information when they arrive at all drive-thru location. Those that meet all qualifications but are without insurance are still eligible to receive the vaccine. While pre-registration is encouraged, it is not required to receive the vaccine. To preregister, go to the LSU Health Shreveport website at www.lsuhs.edu.
